Re: Oral Ex Parte Presentation in MB Docket No. 03-15

Dear Ms. Dortch:

On behalf of QUALCOMM Incorporated ("QUALCOMM"), this is to report that yesterday, Paul Jacobs, Executive Vice President and President of QUALCOMM's Wireless & Internet Group, Jennifer McCarthy, Vice President, Regulatory & Market Development and I had meetings with: 1) John Muleta, Peter Tenhula, Michael Ferrante, Roger Noel, Lloyd Coward, and Greg Vadas of the Wireless Telecommunications Bureau; 2) Commissioner Michael Copps and his Senior Legal Advisor Paul Margie; 3) Ken Ferree, Rick Chesson, and Keith Larsen of the Media Bureau; and, 4) Chairman Michael Powell and his Legal Advisor Sheryl Wilkerson.

During these meetings, Dr. Jacobs, Ms. McCarthy, and I explained that QUALCOMM, as the licensee of Lower 700 MHz spectrum on Channel 55, is in the process of planning for the deployment of an innovative new wireless service on this spectrum which, in conjunction with existing PCS and cellular services, would deliver important public interest benefits and could well complement the service that analog TV stations provide today on Channel 55. We expressed QUALCOMM's strong support for efforts that would end the DTV transition as quickly as possible to clear Channel 55 for the deployment of our new wireless service, but also preserve the ability of analog TV licensees to continue serving their audiences and even create the possibility of new business opportunities for them via this new wireless service. We also discussed the importance of the Commission developing a clear standard for interference to TV stations on the adjacent channels to ensure that we can deploy our service without causing excessive interference to the adjacent TV stations until the DTV transition is concluded.

Respectfully submitted,

/s/ Dean R. Brenner
